NUCLEAR REGULATORY COMMISSION

[Docket Nos. 72-1031; 72-38; 72-44; 72-45; and 72-77; NRC-2022-0113]

**Constellation Energy Generation, LLC;
Arizona Public Service Company; Duke
Energy Carolinas, LLC**

AGENCY: Nuclear Regulatory
Commission.

ACTION: Exemptions; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) issued four exemptions in response to requests from Arizona Public Service Company; Constellation Energy Generation, LLC; and Duke Energy Carolinas, LLC. The exemptions will allow the licensees to deviate from the requirements for the MAGNASTOR® storage cask system in Certificate of Compliance No. 1031, Amendment No. 7 and Amendment No. 9, by utilizing storage cask lids that were not fabricated in accordance with the requirements of two codes issued by the American Concrete Institute. The NRC is issuing a single notice to announce the issuance of these exemptions because these are nearly identical.

DATES: The two exemptions to Arizona Public Service Company; Constellation Energy Generation, LLC were issued on May 13, 2022, and two exemptions were issued to Duke Energy Carolinas, LLC on May 16, 2022.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC issued four exemptions in response to requests dated March 31, 2022, and April 7, 2022, from Constellation Energy Generation, LLC and Arizona Public Service Company; and Duke Energy Carolinas, LLC, respectively. The exemptions allow exemption from the requirements of title 10 of the Code of Federal Regulations (10 CFR) sections 72.212(a)(2), 72.212(b)(3), 72.212(b)(5)(i), 72.214, and the portion of 10 CFR 72.212(b)(11) which requires compliance with the terms and conditions set forth in the certificate of compliance for each spent fuel cask used by an independent spent fuel storage installation general licensee.

The exemptions requested authorization to load, and store spent fuel in MAGNASTOR® storage casks with lids that were not fabricated in accordance with Technical Specification A4.2 as specified in Amendment Nos. 7 and 9 of the NAC International Certificate of Compliance No. 1031 for the MAGNASTOR® storage system. Amendment No. 7 is used at the Catawba, McGuire and Palo Verde independent spent fuel storage installations. Amendment No. 9 is used at the Three Mile Island, Unit 1 independent spent fuel storage installation.

Technical Specification, Appendix A, A4.2 requires the concrete cask to be designed and fabricated in accordance with the American Concrete Institute Specifications ACI-349, “Code Requirements for Nuclear Safety Related Concrete Structures,” and ACI-318, “Building Code Requirements for Structural Concrete,” which according to the technical specifications govern the concrete cask design and construction, respectively.

NAC submitted an amendment request to eliminate the need for compliance with the referenced technical specification for the concrete in the cask lids in the Certificate of Compliance No. 1031 for the

MAGNASTOR® storage system, however the exemptions were necessary to meet loading campaigns scheduled before resolution of the NAC's amendment request. The applications provided information documenting that concrete in the cask lids is not relied upon for the strength safety function provided by the ACI codes in Technical Specification, Appendix A, A4.2, and the concrete in the cask lids was fabricated using standards that ensure the concrete will continue to meet the required shielding safety function.

Based on the NRC staff's evaluation of the exemption requests, and the statements and representations provided by the applicants in the exemption requests, the staff concluded that the proposed actions to exempt the cask lids from the current Technical Specification in A4.2 at each of the ISFSI sites is authorized by law and will not endanger life, property, or the common defense and security, and is otherwise in the public interest and, therefore meets the exemption requirements in 10 CFR 72.7.

II. Availability of Documents

The following table provides the facility name, docket number, document description, and ADAMS accession numbers related to each exemption issued. For further details with respect to these exemptions, see the requests for exemption for each facility in ADAMS.
